COLT STARTING CLINIC SERIES

APRIL 8, 15, 22, 29TH

Do you have a young horse to get started or one that you have not ridden much? Nervous about starting your horse alone or not sure what steps to take first? Would you like some assistance in learning how to work with your horse? I can offer you the chance to work on your horse with my guidance. This is an excellent opportunity to get started towards a solid foundation on your horse. Most horses live for many years, so why not have one that is enjoyable and fun to be around? Here is your chance to work on your horse to build a great relationship with them. This is a clinic series of four sessions. Each session is once a week and designed to give you a week in between to perfect the lessons we covered. Then return for the next lesson to advance your horse. We start the series slowly with ground work, desensitizing, lunging, moving body parts and negotiating obstacles. We continue on to saddle work and riding with lots of details covered in between! There is one on one work with you, and your horse, as well as group work.

The first session is on Wednesday late afternoon and evening. The first session is a one on one session with individual reserved time slots. This is due to the amount of ground work exercises and round pen work conducted. Following clinic dates are in the evenings. At each session, we will review the prior lessons work and continue on as a group. The goal is to have a safe, respectful horse and owner who is a strong leader.

Christy Bourbonnais has been training and showing horses since she was 8 years old. She has conducted numerous clinics and has a respectable following. She was featured on RFDTV's Sure in the Saddle series and is an AQHA Professional Horseman and is a Certified Western Dressage Instructor. She has a kind and gentle approach. Patience and excellent timing are strong assets in her training program. She trains many young horses each year for clients and private sale. She shows and competes during the year with her horses, as well as client horses. She conducts a limited number of clinics each year to ensure her opportunity to train and show. See further information on Christy on her website or Facebook pages.

Cost of clinic series is \$275.00 Private lessons and further instruction is available.

Don't miss out on this opportunity to get a great start on your horse's future!
